

BINARY STARS IN A NEW ERA

Lijiang, China, 24 -30 Aug 2025

Topics:

1.Binary star interactions

from mass transfer to common envelope evolution

2.Supernovae

from progenitor modelling to explosion simulation

3.Gravitational wave sources

from double black holes to double white dwarfs

4.Exotic stars

X-ray binaries, Pulsars, sdB/O, CVs, etc

5.Binary population synthesis

6.Observations from large facilities

Important Dates:

Nov 18, 2024	Registration & Abstract submission opens
Apr 15, 2025	Deadline for abstract submission
May 15, 2025	Announcement of the invited & contributed talk speakers
Aug 24-30, 2025	Binary Stars Conference

SOC:

Floor Broekgaarden Xuefei Chen
Hongwei Ge (Chair) Zhanwen Han
Natalia Ivanova Christopher A. Tout

Invited Review Speakers:

Nadejda Blagorodnova Orsola De Marco
Tassos Fragos Natalia Ivanova
Robert Izzard Xiangdong Li
Ilya Mandel Michela Mapelli
Philipp Podsiadlowski Hugues Sana
Veronika Schaffenroth Xiaofeng Wang

Looking forward to meeting you in Lijiang...
